

Hinged safety grates

9531

GTIN: 4007126046536

As integrated grate in manhole covers or for retrofitting in manhole shafts.

Version

can be folded backwards

- Material: Stainless steel 1.4301 or 1.4571
- Load capacity 200 kg
- Mesh size 100 mm
-
- Models: HS1, HS2, HS3, HS4, HS5, HS6, HS7, HS8, HS9, HS12, HS14
- Can be folded back (to the hinge side)
- Accessible safety grille, integrated in the shaft cover as a fall arrest with the lid open. The raised lattice can be fixed with the existing chain.
- Large openings are secured with multi-part grilles, so that the individual grilles make easy handling possible.
