

H-8 rope tensioning device

6012121

GTIN: 4007126014863

To keep the rope taut, the rope tensioning unit is used. This causes the rope, at which the rotor is guided, to always stay on tension during every movement and ascent and descent.

Material

Stainless steel 1.4301 / AISI 304

- Rising protection system for climbing ladders
- System components for the highest safety requirements
- Stainless steel and galvanized steel
- High quality
- Tested according to the most stringent standards and safety regulations
- Please observe country-specific regulations!
