

Attachable extension

9533514

GTIN: 4007126046352

The pipe outer diameter is suitable for insertion into a KG socket. Intermediate lengths can be produced on site by shortening. L = 500/1000/1500 mm We recommend using the special adhesive HD 150.150 KTU 593 (0100121) on the plug-in attachment in order to make the connection between two pipes permanently secure and seal it, especially for soil installation.

Lenght in mm
500

Version
DN 100

- Easy extension by plugging on
- Different lengths, thus the best possible adaptation to all shaft constructions

Specifications

Material	stainless steel 1.4404 / ASTM 316 L
Lenght in mm	500
Version	DN 100
