

H-8 Cable stop at the top for conductor outer width 520mm on aluminum rungs

**6017121**

GTIN: 4007126014894

Attachment for the Ø8mm safety wire rope (to be mounted in vertical position) incl. Rung reinforcement. The attachment of the cable stop to the ladder is variable - the assembly is possible both in the middle as well as laterally on the rung.

Material  
Stainless steel 1.4301 / AISI 304

- Certification according to standard EN ISO 14122-4, DIN 18799-1 and EN 14396
- Dynamic load in the fall of 6kN as well as a static load of 15kN from the total system.
- Mounting on rung, left, right or center
- Suitable for mounting on aluminum conductors with outer width 520mm

Specifications

Rung dimension	30x30 mm
Ladder external width in mm	520
Ladder rail 72x25mm	✓

Material	Stainless steel 1.4301 / AISI 304
