

H-8 Cable stop at the top for
conductor outer width
520mm on aluminum rungs

6017151

GTIN: 4007126014771

Attachment for the Ø8mm safety wire rope
(to be mounted in vertical position) incl.
Rung reinforcement. The attachment of the
cable stop to the ladder is variable - the
assembly is possible both in the middle as
well as laterally on the rung.

Material

hot galvanised steel 1.0037 / ASTM A36

- Certification according to standard EN ISO 14122-4, DIN 18799-1 and EN 14396
- Dynamic load in the fall of 6kN as well as a static load of 15kN from the total system.
- Mounting on rung, left, right or center
- Suitable for mounting on aluminum conductors with outer width 520mm
- Material: galvanised steel

Specifications

Rung dimension	30x30 mm
Ladder external width in mm	520

Ladder rail 72x25mm	✓
Material	hot galvanised steel 1.0037 / ASTM A36
