

H-8 Cable stop at the top for conductor outer width 490mm on galvanised steel rungs

6012281

GTIN: 4007126014900

Attachment for the Ø8mm safety wire rope (to be mounted in vertical position) incl. Rung reinforcement. The attachment of the cable stop to the ladder is variable - the assembly is possible both in the middle as well as laterally on the rung.

Material

Stainless steel 1.4301 / AISI 304

- Certification according to standard EN ISO 14122-4, DIN 18799-1 and EN 14396
- Dynamic load in the fall of 6kN as well as a static load of 15kN from the total system.
- Mounting on rung, left, right or center
- Suitable for mounting on galvanized steel conductors with an external width of 490mm

Specifications

Rung dimension	30x30 mm
Ladder external width in mm	490
Ladder rail 40x20mm	✓

Material	Stainless steel 1.4301 / AISI 304
