

Wire rope Ø 8mm

9999999

GTIN: 4007126999999

The H-8 safety wire rope Ø8mm has been tested and certified by the company. The thimble for attachment to the rope stop at the top is firmly pressed and provided with a batch number. The pre-tensioning of the wire rope to the cable tensioning unit is carried out with a further thimble and 4 rope clamps. The use of the fall arrestor SSL-8-R1 is only permitted with our certified wire rope.
