

Fall arrester FABA Klassik

9608002

GTIN: 4007126048219

The FABA Klassik fall arrester meets the requirements of the applicable European Directive EN 353-1: 2002 as well as the "Recommendation for Use" Vertical Group 11, CNB / P / 11.073. The fall arrester is designed for fall arrest devices according to EN 353 part 1 and is thus ideally suited as a reliable fall arrester on stationary ladders. Equipped with an integrated belt-trap element for minimizing catch-impact forces, it contributes equally to safety as well as to health protection.

- Max. Tilt angle -6° / $+35^{\circ}$
- Optimizing the brake lever to the belt damping device
