

Crossing unit for rail 72x25mm

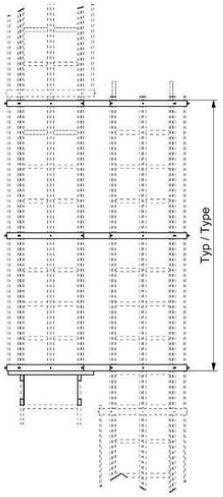

6047011

GTIN: 4007126014375

On ascents of 10m or more the climbing route must have two flights. The grating is fixed on supports which must in turn be fitted to the rails of the ladder. The safety cage on the ladder ensures a secure crossover to the next ladder section.

Material
hot galvanised steel 1.0037 / ASTM A36

Height in mm
max. 2240

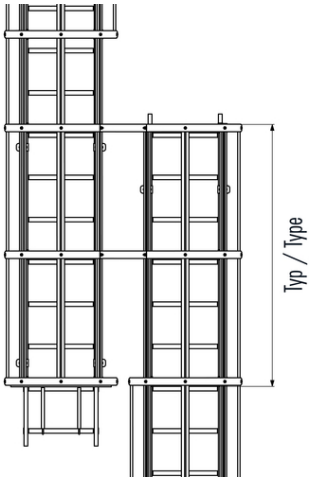

- System components for the highest safety requirements
- In aluminum, stainless steel and galvanized steel
- High quality
- Tested according to the most stringent standards and safety regulations

- Material: galvanized steel
- complete set up to a height of 2240mm

Specifications
