

Fittings for sliding ladder

9635502

GTIN: 4007126040077

Fittings around a ladder 40x20mm with ladder mounted on the chessboard a slider part downwards and attach with the appropriate accessory and hang it.

Version

Set of parts for sliding fittings

- Contamination of the lower conductors is prevented
- Ladder does not interfere with working in the lower area
- quick pull up and fastening the ladder by chain and shackle

The hardware set is used to extend a ladder with a beam dimension of 40x20mm, mounted on the chessboard, with a slider part downwards. This is done in areas where fouling of the lower conductors during operation is to be prevented, or the conductors are interfering with working in this area.

Please note: The fixed and the sliding ladder must cover two rungs!

Specifications

Ladder rail 40x20mm
