

# Fall arrester SPL-50-PRO

9582771

GTIN: 4007126174406

The new fall arrester SPL-50-PRO fulfils the requirements of the new European Regulation on Personal Protective Equipment (EU) 2016/425 as well as the standard DIN EN 353-1:2018. Our fall arrester SPL-50-PRO is ideally suited as a reliable fall protection device on fixed ladders. The fall arrester SPL-50-PRO is separable, so can be attached to the fall arrest rail at any position. This enables the user to safely enter or leave the climbing path from any position. Fitted with an integrated shock absorber to minimise jolting impact forces, it enhances safety while protecting the user's health.

- Further development and optimisation of ergonomic features
- Slimmer and lighter design
- Divisibility
