

Ballast weight for roof railing

6028975

GTIN: 400712626562 3

Additional use if the step-over cannot be fixed inside to the parapet or directly on the roof. The set consists of two additional ballast weights, as well as four railing part connectors (either for connection to HAILO bridging steps or exit rail brackets).

- Installation without drilling or interfering with the roof waterproofing
- No thermal bridges
- Self-supporting
- Ballast weights with highly resistant polyethylene cover

Specifications

Ballast weights (kg/pce.)	12,5
