System consists of:

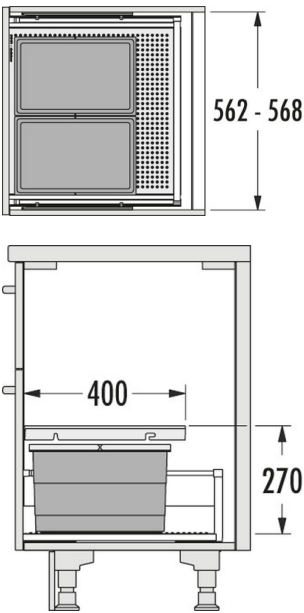

- 2 inner bins (2x 14 l; bin height 220 mm)
- Removable system lid with practical storage option
- Allegro insert mat

The HAILO Allegro system is a flexible drawer solution for use in kitchen cabinets.

Thanks to its dimpled structure and anti-slip coating, the Allegro insert mat provides a stable and secure hold for the inner bins.

The studs on the top of the mat hold the bins in place, while the anti-slip coating on the underside of the Allegro mat prevents slipping.

The flexible system also makes cleaning easy.
