The Separato M is the compact solution for drawers.

With a bin height of just 210 mm, the system is ideal for 2-part fronts – even in handleless versions – especially where there is no space for classic waste separation systems.

The Separato M is suitable for all standard drawer systems.

All bins are fitted with matching lids to ensure cleanliness and odour protection.

The robust metal bin holder ensures stability and long-lasting use in everyday kitchen life.
